Miracle Apata — Python Engineer

GitHub • LinkedIn • Email • Portfolio • +234 816 852 4477
Akure, Nigeria (WAT, UTC+1) · Remote · Open to remote roles

Summary

Python engineer who started programming with Python in 2018/2019 (self-taught) and now uses it across production **backend APIs (FastAPI, Django)**, **PySide6 desktop applications**, and computer-vision tooling (OpenCV). Delivered systems for fintech, logistics, and education, including exam-grading software used by universities across Spain. Writes tested, maintainable code and works well independently or in remote teams.

Technical Skills

- **Languages:** Python, SQL, JavaScript
- **Backend:** FastAPI, Django, Flask, SQLModel, REST API design, Socket.IO
- **Desktop & CV:** PySide6 / Qt, OpenCV, TensorFlow, PyInstaller
- **Data & automation:** Pandas, NumPy, Web scraping, CLI tools, Excel/CSV workflows
- **Databases & tools:** PostgreSQL, MySQL, Redis, Docker, Linux, Git, GitHub Actions, Pytest

Experience

All engagements are remote and held concurrently.

Backend Engineer · Jodna Technologies · Port Harcourt, Nigeria (Remote) · *Dec 2024 – Present*

- Early member of a young software company delivering client projects; initially owned all backend work.
- Led backend architecture for mobile and web platforms on **FastAPI**: authentication, role-based access control, analytics.
- Built a notification microservice on **FastAPI + Socket.IO** with device-token FCM support; mentored junior backend engineers.

Desktop Software Engineer · DINATEN · Santa Cruz de Tenerife, Spain (Remote) · *Aug 2023 – Present*

- Build and maintain **piXeval** and **pixEBAP**, two PySide6 desktop apps for automated multiple-choice exam correction, used by universities and academies.
- OCR/OMR answer-sheet scanning and grading with OpenCV2 and TensorFlow (up to 30 exams/minute).

Freelance Python Developer · Remote · *2020 – Present*

- Delivered backend APIs and automation scripts for clients in Nigeria and internationally; built Pandas data-processing tools for Excel/CSV-heavy workflows.

Backend Engineer · Sofgo · Ondo, Nigeria (Remote) · *Sep 2023 – Sep 2024*

- Built RESTful Django APIs for logistics and e-commerce platforms, with authentication and payment-gateway integrations.

Projects

Backend / API

- **Multi-Tenant Mobile API Backend (Jodna)** — *FastAPI, MongoDB, Redis, JWT, PM2.* Role-based APIs with real-time notifications for a mobile commerce app.
- **PriceGrid** *(solo)* — *FastAPI, SQLModel, PostgreSQL, Redis, Alembic, Docker, pytest.* Market price-intelligence API with Redis pub/sub spike detection, cached reads, RBAC, and unit and integration tests.

- **Temp_dev_db** — *FastAPI, Docker.* REST API that issues time-limited development databases, with API-key user management.

Desktop (PySide6)

- **piXeval & pixEBAP (DINATEN)** — *Python, PySide6, OpenCV2, TensorFlow.* Production exam-correction apps: OMR grading at up to 30 exams/minute, bulk import from Word/Excel/Moodle, multilingual UI (Catalan, Spanish, English, Euskera, French).
- **piXeval rebuild (DINATEN)** *(in progress, sole developer)* — *Python, FastAPI, WebSockets, pytest, React, TypeScript.* Re-architected the PySide6 app into a Qt-free engine, a FastAPI backend, a web UI, and swappable desktop shells; 40k+ lines of Python and 79 test files. Rewrote the owner's sheet-generation scripts into a modular PDF/barcode/print-run pipeline.
- **SnapGrade** *(solo, in active development)* — *PySide6, OpenCV, pyzbar, qrcode, ReportLab, openpyxl.* Generates, scans, and grades multiple-choice sheets via OMR with an ink-fill-ratio classifier and Excel roster import/export.
- **AudioWave** — *Python, NumPy, PySide6.* Qt-free NumPy audio core (WAV/MP3 loading, loudness, spectra, editing) under Qt widgets, plus a recording and editing studio.
- **Qt Material Widgets** — *Python, PySide6.* Python port of a Material Design widget set for Qt apps.
- **Analytics Dashboard** — *Python, PySide6.* Figma-designed dashboard ported to desktop widgets.

Education & Certifications

- **B.Eng. Electrical & Electronics Engineering**, Federal University of Technology, Akure — 2024
- **Python Developer Certification**, freeCodeCamp — Jul 2026, ~300 hours (verify)
- **Languages:** English (fluent, C1), Spanish (conversational, B1)
