🧾 Miracle Apata – Developer Resume Collection

This repository contains curated, role-specific resumes written in Markdown format. Each resume highlights a unique specialization in my software development journey.

📂 Available Resumes

Role	Filename	Description
🐍 Python Developer	python-developer.md	General-purpose Python experience and scripting work
📱 Mobile Engineer	mobile-engineer.md	Flutter-based cross-platform mobile development
🖥️ Desktop Developer	desktop-developer.md	PySide6 and SwiftUI-based apps for Windows and macOS
🛠️ Backend Engineer	backend-engineer.md	FastAPI, ASP.NET, and Node.js/TypeScript backend systems
💻 Software Engineer	software-engineer.md	Full-stack and systems development with cross-platform expertise

🔎 Usage

- Clone or browse the repo to view resumes per role.
- Copy or fork to reuse the Markdown templates for your own portfolio.
- Click on individual `.md` files to view each resume directly in GitHub.
